TRADE WITH JAPAN

These are Canada's growing days. All over the civilized world the word Canada is an every tongue. Our abundant and practically limitless natural resources are bringing Canada rapidly forward to the front of the nations. Our great need is markets. In this connection the announcement made by the Hon. Sydney Fisher, Dominion minister of agriculture on his return from a trip to Japan, will be of especial interest. He says that in Japan exists an almost unlimited market for our flour, lumber, pulp and furniture. What we of the west are particularly interested in are flour and lumber. In the far north are immense forests of the finest timber. These boundless resources will be tapped just as soon as the market opens for them. A large and open market drives lumber dealers to exploit new fields and as markets are opened so will our magnificent forest wealth in the north be developed. Flour or wheat, is what we are more directly interested in at the present moment. The greater the demand the higher the price paid to the producers. Western Canada produced an enormous amount of wheat last year. This year will show an increase of 25 per cent. The increase next year will likely be double this owing to the vast immigration that has sought our lands this year. This continually increasing supply of wheat would tend to glut the market and lower the price were not new markets continually opening satisfactory owing to the Anglo-Japanese alliance and another reassuring feature is that this demand will be continually increasing as Japan progresses in Empire building.

Another Outlet

St. Paul, Minn., May 16. — It has been learned that the Minneapolis, Superior, St. Paul and Winnipeg railway has been successfully financed. The capital is \$12,500,000. As projected, the railway will run from St. Paul to Duluth. A few miles above Anoka, a northern line will connect with the Canadian Northern on the Canadian line at Beaudette. Traffic arrangements have been made with the Canadian Northern and in order to maintain an independent position, a line of Great Lake steamers will be instituted.

Mail Routes and Service.

Mail services to and from the Edmonton post office, both by rail from the south and by stage to the outlying country points are as follows:

With Strathcona, mail is exchanged twice daily.

Canadian Furs

The following is a resume of the spring situation in the North-West fur and hide market.

HIDES—Receipts always lighter in the spring and summer. The settlement of the tanners' strike in Chicago was followed by a marked advance in light green salted native hides under 60 lbs and calf skins recovered their 1-2 c. decline. Market steady but the quality of spring hides is very poor and any further advance will be for short-haired hides. Dry hides have recovered from their weakness and are steady.

DEER SKINS—Receipts lighter but large for this time of the year. Market firm at unchanged prices. Note that the skins of deer, elk, moose and caribou can be received in this market at any time of the year from anywhere in the world without molestation from Minnesota game wardens, except skins taken from deer, elk, moose or caribou in Minnesota, which cannot be killed or sold at any time.

SHEEP PELTS—Receipts large but include all sized lots from a few bundles to carloads and all kinds either green, salted or dry. Market has declined heavily for all kinds in sympathy with the lower wool market but probably will not decline much further. There has been speculation in the Territories at proportionately higher prices than pelts were worth in market, and the pelts were not thoroughly dry either, containing 5 to 10 per cent. moisture. Bear hides that many purchasers have been rejected by buyers for dampness. Only a short spell of good weather in the Territories is required to dry pelts thoroughly.

WOOL—Except fat sheep wool receipts are very light. Are receiving many inquiries from sections where small quantities of early wool are being sheared. Shearing will not be general before about June 1. Contrary to expectations manufacturers have not bought generally which has depressed prices and wool declined two to three cents from the highest point. Should not decline much more before the demand improves. If wool is considered cheap, there ought to be much speculative buying which will help the market.

FURS—Receipts decreasing except spring muskrat and fine Canadian winter caught furs and from the interior of Alaska and Canada. The results of the London sales are generally pretty closely anticipated by exporters. This year they had to realize high prices to secure any profit or even avoid loss on account of the excitement and unwarranted prices paid last January and February. Local collectors received little benefit from the excessive prices, because they in turn paid high prices after furs declined and many lost money. They depended upon the "come and go by night" travelling buyers who bought on the up market and departed when it declined.

At the March sale beaver, bear, red fox, marten, muskrat, mink, opossum, raccoon, and skunk averaged lower than was expected. After the unusually large offering of 531,542 skunk was announced every one looked for lower prices. Some of the best posted dealers cannot see why marten, mink, muskrat and raccoon averaged so low. Every one was sure muskrat, on account of the limited offering, would advance heavily. The report shows an advance on all but springs, but the actual prices the way we figure, were lower than in January. There was no American or foreign demand for bear in the sale except for a few of the finest, and bear averaged very low in price. Wolf, on account of the demand in this country, were expected to advance, but did not do so. The high prices which ruled for raccoon stopped the demand and there was a heavy decline which came as a great surprise to this country. At the Leipzig fair, which occurred since the March London sale, there was "a light demand for raccoon." There is no important feature in any other kind.

London Oat Market

Commercial, May 16th.
According to a recent cable dispatch from London, the market for Canadian oats was weak and lower, the reason assigned therefor being the arrivals of Russian oats. Russia seems to be a great shipper of oats, as she has exported since Aug. 1, 49,844,800 bushels against 40,863,369 bushels for the same period the year previous, being an increase of 8,981,430 bushels. The exports from the United States since last August were 5,000,000 bushels.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.

Jews Slaughtered By Russians

London, May 15. — The desperate economic situation in Southwest Russia, between Odessa and the Roumanian frontier has been brought to a crisis by the recent massacres of Jews, which, it is feared, will be repeated as the racial and labor conflict in that region remains at a complete deadlock.

The Jews have in the course of years acquired not only control of trade but of employment, in all the principal towns. After much street violence against the Jews and scenes of bloodshed they retaliated by withholding both employment and trade as well as credit.

The newspapers of London have contained practically nothing on the situation, which is considered more or less chronic. The only dispatch concerning the massacre at Kishineff, to be printed in the London newspapers is from a St. Petersburg correspondent of the Telegraph. This dispatch states that the newspapers of St. Petersburg published horrible details of the massacre. One carpenter had both of his hands sawed off by his own saw. Some women had their eyes gouged out and others were ripped open. Some Jews had their arms pulled asunder from their bodies. Several children were flung out of windows into the streets. Five thousand families are said to be in want. Accounts from Kishineff received at Jewish centers here, describe the slaughter, which, it is stated, continued for nearly a week. On the first day ten persons were killed and eighty injured. The market was destroyed. On the second day the hospitals were filled with victims.

Many others were lying in the streets and the town was without bread and was short of meat.

London, May 15. — The Standard this morning publishes a letter from Kieff, European Russia, describing the pitiful scenes witnessed there daily which arise from the operations of the expulsions of the Jews. This edict affects 77,000 persons. The Jews were given six months' grace, but, hoping for a respite a majority of them remained in Kieff, until the end of this time, when they were obliged to sell their property at ruinous prices and depart hurriedly. These Jews will distribute themselves mostly throughout the various cities and townships of Holland. These cities becoming more and more congested. Hence, concludes the writer of the letter, the ever increasing emigration, especially to the United States, which the emigrant aid societies represent as a land of promise.

Winnipeg Markets

Commercial, May 16th.

Wheat—Manitoba wheat has been steady and firm all the week and has gradually advanced 1-4c at a time, and is now 78c for 1 hard in store lake ports. There has been no special feature to the trade except a steady market absorbing all offerings made at not over market limits. The dry weather over the Northwest is having its effect on the market and while buyers do not show any great keenness to secure wheat, holders are at the same time slow to part with it. The future of the market depends very greatly on weather changes in Manitoba. Last week closed with 1 hard at 77 1-4c, and there has been an advance of 3-4c on the week so that at the close of business yesterday prices are: 1 hard 78c, 1 northern, 76 3-4c; 2 northern, 74 3-4c; 3 northern, 70 3-4c; and No. 4 wheat, 66 3-4c for spot. May or June delivery in store Port William and Port Arthur.

Oats—There has been a good demand this week from railway contractors who are stocking up in preparation for the season's work. Large quantities have been disposed of in this way and in order to complete their orders, grain-houses have yielded a cent in the price, which means that the market has advanced that much. For shipment to Port William there has not been so much enquiry, although we hear of one large order being placed. Oats have been offering freely as farmers are now through sowing. Local feed merchants pay 12 to 13c per bushel for crops of No. 2 white on truck here. Feed grade is worth 28c. At Port William No. 1 white oats are worth 31 1-2 cents per bushel. No. 2 white, 30 1-2 cents.

Barley—The market is almost nominally as there was no offering. About 30 to 31 cents per bushel is the value for feed grades at country points.

NOTICE.

To Contractors, Farmers and all who have machines liable to renewal or repair.

The business heretofore carried on under the name of the "Edmonton Iron Works" will now be transacted by the "Edmonton Iron Working Company" at the same place of business as in the past.

The new company is now installing new machinery as fast as it can be got under the ground. The company is also prepared to furnish to the various trades all cast iron work and machine castings at a price that will prohibit importation of these things.

CONTRACTORS.

Contractors can procure cast iron columns of any design, such weights, ash doors, truss rods, bolts, and nuts, for building and bridging purposes, etc., on shortest reasonable notice.

FARMERS.

Farmers can have their mowers, binders and threshers overhauled and put in first class state, thus, in any case, saving the expense of a new machine for some years.

OWNERS OF ENGINES AND BOILERS.

Competent men are always on hand to go into the country and repair engines and boilers that cannot be brought to the shops.

TERMS.

Terms cash, except in cases of contracts accounts. The new company asks no favor from the public except opportunity, therefore if work is not promptly and satisfactorily performed, it will be deemed sufficient reason for the discontinuance of the customer.

Customers will confer a favor upon the company by reporting any faulty or discounting by the employee in the performance of their work.
